

How to Login INFONET Mail into Browser?

We created a mail server for our own,

We can send/received mails from internally/Externally based on employee category,

Steps:

- **1.** First we need to type the mail server URL into browser window
- 2. Please type your mail credentials and press Sign in button,
- **3.** Enjoy using INFONET Mail...!

Mail URL: Https://mail.infonetsmart.com

Username: Your mail ID

Password: Your mail Password
